

## Introducing CVS HealthHUB<sup>®</sup>

*Where healthier meets easier*

### The care and guidance you may need

Keeping you and your family healthy is critical. It's important to know there's a trusted place to get affordable care and support you may need, on your schedule.

CVS<sup>®</sup> HealthHUB is a neighborhood wellness destination with a professional care team, more health services and more wellness products, all in one place.

### CVS HealthHUB locations offer

#### Professional care team

Whether you need treatment for a sudden illness like the flu, or help managing a chronic condition like diabetes, you'll have access to a professional care team of nurse practitioners, physician assistants and pharmacists working together to get you the best care for your needs. They'll also share details of your visit with your doctor.

#### Care Concierge

Your care concierge will guide you every step of the way and help you connect to CVS HealthHUB services and products to support your total health.

#### Expanded health and wellness products

We've expanded health and wellness products to include everything from self-care to durable medical equipment.

**Visit [CVS.com/HealthHUB](https://www.CVS.com/HealthHUB) to find a location near you.**

\*Services vary by location. See store for details. Pharmacy services provided by CVS Pharmacy, Inc. Clinical services provided by a MinuteClinic<sup>®</sup> nurse practitioner or physician assistant within a HealthHUB<sup>™</sup> location.
